Subject: APPLICATION FOR APPROVAL OF MASTER THESIS

Candidate: FLORINA JASHARI from Ferizaj

Topic of the Master Thesis: Teacher as a key factor in students' motivation

Name of the Mentor (proposal): Doc. Dr. Qestija Arifi

Short description of the thesis:

The major approach of this Master Thesis is to show the effort of the teachers in Ferizaj's High Schools towards students' motivation. I have decided to deal with teenage students since my own professional background relates to this age. During my experience I have noticed a lack of motivation in schools, therefore I think that my thesis topic is going to be useful for people who want to understand the importance and meaning of motivation as well as for those who want to change their behaviours.

My thesis will contain questionnaires and interviews hence I believe that it is going to show a strong, real state of what happens in Ferizaj's High Schools.
