FACULTY OF ENGLISH LANGUAGE
POST GRADUATE STUDY'S OFFICE

Study Program: MASTER STUDIES

Faculty: English Language

Subject: APPLICATION FOR APPROVAL OF MASTER THESIS

Candidate: Gjyle Dinaj from Peja

Topic of the Master Thesis: ELT learning style- The importance of the knowledge of the students and their learning style from the teacher

Name of the Mentor (proposal): dr. Qatip Arifi

Short description of the thesis:

From the first days of his life and for all along his life every person tries to learn. The first steps of forming a personality of a child will be given at home by the family. Every child needs a model and that model is the family for his early ages. Every parent wants their child to be successful, educated and serves good first for them selves, then for their family, society and their nation. Later on the responsibility of creating a good person becomes to us- teachers. That's the reason why I choose to work in this topic. In this thesis I will try to do a research in the school that I work, with my students to see the way we work. I will explore the importance of learning styles to EFL in our schools. This work will bring out results of a research that is going to be done in more than two primary schools in Peja region. These results will help us to know more about the teachers work in these schools and the importance of knowledge of the students and their learning style.
